

Profile

Results-driven Data Analyst with a strong Computer Science background and hands-on experience in transforming raw data into actionable insights. Skilled in data preprocessing, exploratory data analysis (EDA), statistical analysis, and data visualization to support business decision-making. Proficient in **SQL, Python, Excel, and Power BI** for building dashboards, reports, and automated data workflows. Experienced in working with large datasets, identifying trends, and communicating insights clearly to stakeholders.

Skills

Technical Skills — Python , SQL , Power BI , Excel ,Mongo DB , Git-Hub , AWS , CI/CD pipelines •

Statistics and Machine Learning — Classification, Regression, Clustering, Decision Tree, Random Forest, KNN, K-mean •

Data Science Packages — Scikit, NumPy, Pandas, Matplotlib, Seaborn

Projects

Thyroid Disease Detection

- **Objective:** Built an ML model to predict thyroid disease from patient data, supporting hospitals in faster and more accurate diagnosis.
- **Tech Stack:** Python, ML algorithms, Docker, Airflow, MongoDB,Flask, Fast API, AWS, GitHub-actions, MLOps
- **Achieved** an accuracy of 99.85% using XgBoost.

Credit Card Default Prediction

- **Objective:** Predicted credit card default risk using customer characteristics and payment history to support early risk detection in commercial banking.
- **Tech Stack:** Python, ML algorithms, Docker, Airflow, MongoDB, Flask, Fast API, AWS, GitHub-actions, MLOps.
- **Achieved** an accuracy of 99.85% using Random Forest.

Aps-fault-detection

- **Objective:** The problem is to reduce the cost due to unnecessary repairs. So, it is required to minimize the false predictions.
- **Tech Stack:** Python, ML algorithms, Docker, Airflow, MongoDB, Flask, Fast API, AWS, GitHub-actions, MLOps
- **Achieved** an accuracy of 99.85% using Random forest Classifier at a cost of 2950.

Work Experience

Data Analyst - WV AUTOMATION PRIVATE LIMITED

- data collection
- Developing **Interactive Dashboard**.
- Data pre-processing and data wrangling.
- Finding the insights of data-by-data analysis **using statistical methods**.
- Preparing **model architecture**
- **MLOps pipeline**
- **Deploying** and monitoring models.

Education and Certification

Full Stack Data Scientist

, Bangalore, India

Bachelor Of Computer Application (BCA),

Swami Vivekananda Subharti University, Meerut, India
